### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ido Tuchman on February 27, 2006.

The application has been amended as follows:

In the claims:

Claim 29;

Lines 5-6, replace "identifying a complete set of authorization resources of said collection of code; and" with

—identifying a complete set of authorization resources of said collection of code;

identifying any bounded path within said program graph;

associating any authorization resource with said any bounded path;

and—.

Cancel claim 31;

Claim 32;

Line 10, replace "wherein the bound path locator" with –wherein the bounded path locator--.

Claim 47;

Lines 6-7, replace "means for identifying a complete set of authorization resources of said collection of code; and" with

–means for identifying a complete set of authorization resources of said collection of code;

means for identifying any bounded path within said program graph;

means for associating any authorization resource with said any bounded path; and--.

Cancel claim 49.

***Allowable Subject Matter***

2. Claims 1-5, 7-19, 21-30, 32-36, 38-48, 50-70 and 74-100 are allowed.
3. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention is directed to a method and apparatus to associate an authorization resource with a bounded path of a program graph representing a collection of code. The closest prior art, Gupta, discloses a similar invention; however, Gupta does not

disclose employing privileged code wherein a stop node represents a check permission method and start nodes are any of root nodes in the program graph or a node representing a privileged action method. Therefore, claims 1-5, 7-19, 21-30, 32-36, 38-48, 50-70 and 74-100 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
